PRESIDENT WARE STILL ON STAND

Was Vigorously Cross Examined by The American Tobacco Co.'s Counsel.

Special to Telegram.
Raleigh, June 28.—The cross-examination of J. D. Ware, president of the Ware-Kramer Co., is still under way in the Federal court where the million two hundred thousand dollar damage suit against the American Tobacco Co. has been in progress for nearly three weeks. The examination is directed to forcing the witness to admit that within a very few months after the formation of the Ware-Kramer Co. they began the use of special secret inside discounts, free goods and other trade abuses that they charge the American Tobacco Co. with breaking up their business with. The reading of letters exchanged by Ware and salesmen and jobbers and others furnish explanation as to many of these concessions to the effect that they were forced to meet the warfare that was made on them by the A. T. Co.

The cross-examination as to special discounts and free goods dragged through a mass of correspondence and cigarette transactions extending back to April, 1905, a little over four months after the Ware-Kramer Co. was formed. Norfolk and Richmond were two of the principal points dealt with in this way and Mr. Ware scored in reading contents of letters that showed that the company sharply condemned the special discounts that salesmen had allowed that enabled Richmond and Norfolk jobbers to cut prices to the trade in Virginia and Carolina. Theo. Brown was a salesman who figured prominently in the correspondence and both Brown and Ware stated in correspondence read that one deal that Brown had made through mistaken deal had cost the Ware-Kramer Co. the sale of a million cigarettes. But Brown wrote that Salesmanager Moseley of the A. T. Co. in his territory was making deals of this sort and had come to grief as badly as he had.

Letters were produced by the defendant showing special inside discounts to the Detail Merchant's Cigar Association, New York, cut the cost of White Rolls far below the market price. Ware explained that through this deal he placed his cigarettes in over three thousand stores and saved the expense of one or more salesmen and that he figured in making the deal that he was really saving money in trade expense and was making a very important market.

The cross examination turned to the reorganization of Ware-Kramer Co. when stock of Boyles and others was sold to Leftwich and other Baltimore capitalists and the factory moved to Norfolk. Ware was closely questioned as to that deal and the manipulation of stock by which the Baltimore interests bought at 110 and then a stock dividend of \$15,000 declared so that the holder of every \$1,000 of stock received \$800 new stock. Also the addition of \$7,500 each to the book value of machinery and tobacco on hand to justify the new stock dividend. Ware explained that machinery had been entered as a bankrupt sale purchase price and that their tobacco had increased in value through market advances.

PORTION

Of Cuba Swept by Earthquake Yesterday—Seven Were Injured.

Special to Telegram.
Havana, June 28.—An earthquake swept the eastern portion of Cuba late this afternoon. At Santiago de Lazarette, a sailing vessel, was wrecked and seven persons were seriously injured. The earthquake did not affect the western portion of the island where operations are being perfected to raise the United States battleship Maine. A report from Brigadier Gen. Bixby states that work on the Maine is progressing favorably.

STEEL

Corporation Most Powerful Industrial Organization in World, Says Report.

Special to Telegram.
Washington, June 28.—The United States Steel corporation is the most powerful industrial organization in the world. It dominates the great interests of iron, steel, coke, coal, cement and railroad transportation. This complete control gives it absolute power in making prices and this power is used in the most effective manner. The present capitalization of the steel trust is \$1,000,000,000. It has complete domination of the coal and coke of the country. It makes over 70 per cent of the steel rails, 90 per cent of tube and 80 per cent of tin crates and sheet iron. Such are a few of the facts about the steel corporation which will be given to the world on Saturday in the long awaited report of the bureau of corporations on its study of the iron and steel industry. The report will be submitted to Congress.

ARBITRATION TREATY WITH ENGLAND

Special to Telegram.
Washington, June 28.—Secretary Knox, of the State Department, and Ambassador Bryce, of Great Britain, were in consultation today over the pending arbitration treaty between this country and Great Britain. The answer of the British government to the general arbitration proposal has been received with suggested changes. The general proposition is acceptable. It is expected to have the arbitration pact in form to submit to the Senate before the close of the present session so that it may be acted upon.

Arbitration Agreed Upon.
Washington, June 28.—Official announcement was made at the White House this evening that the peace arbitration agreement between the United States and Great Britain had been officially agreed to between Secretary Knox and Ambassador Bryce and that it would be sent to Congress soon.

SUGAR WARS ARE ABOUT OVER SAYS WITNESS GILMORE

Head of Arbuckle Sugar Company so Testifies Before House Committee.

Special to Telegram.
Washington, June 28.—W. G. Gilmore, of the Arbuckle Sugar Company told the House sugar investigation committee that great sugar wars in this country had practically ceased and that conditions of the trade were very fair. The cane sugar refiners, according to Mr. Gilmore, are not making much money owing to an overproduction. If the duty was taken off of sugar, he said, we would have cheaper sugar and the beet sugar industry naturally would suffer. Gilmore said he was for free trade in sugar.

He described during the course of his testimony the wars made on the American Sugar Company by his company in 1898. He said that the Arbuckle people kept the price down for several months in order to compete with the American company. His company, he said, lost a million dollars. The witness also related how after the Arbuckle people went into the sugar business the American company engaged in the coffee business as a retaliation. He said it was intended as a destructive competition. Now, he said, we make no cut in prices that is not conducive to business. The committee adjourned, after hearing Mr. Gilmore's testimony, until tomorrow.

Route of the Great International Air Race From Paris to London and Return; \$97,500 In Prizes.

The international circuit race from Paris to London and return via Holland, Belgium, France and the English channel, now being contested by some of the leading bird-men, was organized by the Journal of Paris, which was joined by the Petit Bleu of Brussels and the London Standard. The prizes reach the grand total of \$97,500. The total distance to be traveled is something like 925 or 950 miles, depending on the route taken from Calais to London and return. There are nine stages to the circuit, besides a number of compulsory stops. The race started at Vincennes, and the first stage ended at Liege, a distance of 212 miles. The last stage starts from London back to Paris on June 29. The aviators have until July 2 to complete the circuit. The dotted line, from Calais to Dover, is elective, but the Brighton route offers a \$2,000 prize.

SEWER GAS KILLED FIVE IN WASHINGTON

Special to Telegram.
Washington, June 28.—An entire family of five persons were found dead here today in their house suffocated from sewer gas. They were a family of Reynolds, a negro laborer, wife and three children. The tragedy resulted from building operations on a nearby lot in which a steam pipe was operating. It broke the sewer pipe and the gases filled the house in which the Reynolds family was residing.

CONSIDERABLE WORK BEING DONE ON CITY STREETS

The city commissioners have been petitioned to grade and gravel Church street, between Park Drive and Smith street, the city to do the entire work free of charge. No action has as yet been taken regarding the matter.

The city street force is now engaged in grading South Elm between Bragg and McCulloch and laying the curbing between these streets. The convict force is busy putting down the oil covering on West Market street, having covered about one-third of the distance. With clear weather the entire street will be completed this week. While for a few days the street will be in a nasty condition as soon as the oil permeates the sand and top crust of the street it will be all right and will make the street dustless for at least two years. It is more than likely that other streets in the city will be oiled by the city in place of sprinkling them as this is the cheapest way of keeping the dust down.

CENSUS

Sub Committee Reports Apportionment Bill Without Amendment.

Special to Telegram.
Washington, June 28.—The committee on census today agreed to report the Congressional reapportionment bill without amendment, notwithstanding that practically all the committee members had expressed themselves as being opposed to the increased representation in Congress as provided by the bill as it passed the House. Three of the ten members present voted in the negative, but while against the increase, the other seven voted to allow the house to have its way in the matter. The report will be presented to the Senate by Senator Bailey, of Texas, probably next week.

Connecticut Senate Defeats Income Tax.
Hartford, Conn., June 28.—The Senate today defeated the federal income tax amendment by a vote of 22 to 28. The State House of Representatives has not considered the resolution.

Cummins Speaks on Reciprocity.
Washington, June 28.—Referring to the consideration of the Canadian reciprocity question as the "drama now in progress in the Senate of the United States" Senator Cummins, of Iowa, today delivered a speech on the reciprocity bill and offered important amendments to its agricultural provisions.

MASSACHUSETTS WOMAN SUICIDES IN CALIFORNIA.
Special to Telegram.
San Francisco, June 28.—After a voyage from Honolulu Miss Florence R. Cushing, of Needham, Mass., sister of a wealthy shoe manufacturer, killed herself in San Francisco by leaping from the window of a hotel today. Miss Cushing was in ill-health.

DISMISSAL OF CONSUL IS RECOMMENDED

Special to Telegram.
Washington, June 28.—The dismissal of United States Consul William H. Michael, of Calcutta, India, and Thomas Morrison, disbursing clerk of the State Department as a result of the recent investigation of the Day Portrait, statute was recommended in a report which a sub-committee of the House committee on expenditures in the state department will present to the full committee tomorrow.

J. J. FARRISS IS PRESIDENT OF PRESS ASSOCIATION

Lenoir, June 28.—At the closing session of the North Carolina Press Association this afternoon the following officers were elected:
President, J. J. Farriss, High Point.
Vice Presidents, J. H. Caine, Asheville; J. T. Fain, Greensboro; H. C. Martin, Lenoir.
Secretary-Treasurer, J. B. Sherrill, Concord.
Orator, Josephus Daniels, Raleigh.
Historian, R. F. Beasley, Lenoir.
Executive Committee, R. M. Phillips, R. W. Vincent, H. B. Varner, D. T. Edwards.
The meeting has been a fine one with a representative attendance. Many of the members left this afternoon for Blowing Rock and Boone.

Senator Warren To Wed.
Special to Telegram.
New York, June 28.—Senator Francis Warren, of Wyoming, today secured a license to marry Miss Clara Le Baron, of Groton, Conn. Senator Warren is 67 and his fiancée is 35.

REMOVAL

Of Chemistry Chief Wiley is Desired by Those Affected by Pure Food Law.

Special to Telegram.
Washington, June 28.—A new movement for the removal of Dr. Harvey W. Wiley, chief of the bureau of chemistry of the Department of Agriculture and the chief crusader in the cause of pure food, has been started. The Advertisers Protective Association, manufacturers of foods, drugs and accessories, representing an investment of \$400,000,000 whose advertising expenses are over \$100,000,000 annually, says if Wiley is not removed before January it will try to secure petitions from Republicans and Democrats asking the President to remove Wiley and make a clean sweep of the department.
Dr. Wiley has been recently quite active in disallowing patent medicine concerns to operate. He is also largely responsible for the move of Congress to amend the pure food and drug act so as to make it more stringent.

MORSE DENIED HIS PLEA FOR FREEDOM

Special to Telegram.
Atlanta, Ga., June 28.—Charles W. Morse, the New York banker, serving a term in the federal prison here for violating the National banking laws, today failed in his efforts to obtain his release on a writ of habeas corpus. Without passing on the validity of Morse's sentence of fifteen years District Judge Newman denied the petition, declaring that ten years of the sentence was unquestionably just and as Morse had not served that time the court had not at this time any right to enter into the matter.

Senator Lea Has Relapse

Special to Telegram.
Washington, June 28.—Senator Luke Lea, of Tennessee, suffered a relapse today and had to be taken to the Georgetown University hospital. Senator Lea last week submitted to an operation for blood transfusion in an effort to save the life of his wife.

STEAM PLANT FOR PUMPING WATER WILL BE ERECTED

Bids Will be Received by Commissioner Foushee For Construction of \$30,000 Steam Plant For Pumping City Water—Capacity Will be 5,000,000 Gallons Daily.

The Board of Commissioners have instructed Commissioner Foushee to advertise for bids for the construction of a steam plant to be erected at the city pumping station, the plant to have a capacity of 5,000,000 gallons of water daily. It is estimated that the plant will cost in the neighborhood of \$30,000. There will be two steam turbine engines of a capacity to more than supply the water consumption and in case of a breakdown by one engine the other can be instantly put into operation.
The new plant will be erected alongside the present plant, which was designed with a view of using electrical power. The city will construct the steam plant and have it ready for use on the first of next year in case a contract is not closed with the Public Service Company to continue using electricity for pumping the water.

Was Fatally Wounded.
Special to Telegram.
Niagara Falls, June 28.—Robert Leach, of Niagara Falls, Ont., in attempting a dare-devil feat of going through whirlpool rapids in a barrel today sustained injuries that will probably prove fatal.

EDWARD HINES WAS EXCLUDED

Not Allowed to Hear Testimony Introduced in Lorimer Hearing Yesterday.

Special to Telegram.
Washington, June 28.—Edward Hines, the Chicago lumber millionaire, who, as has been testified, had said he put Lorimer over at Springfield, was today excluded from the Senate committee investigation the Lorimer election. The committee considered it advisable that Mr. Hines should not listen to the testimony that is being taken. Ever since Mr. Hines has been in Washington he was allowed to stay in the committee room during the taking of testimony.
Rush Culver, a lumberman and lawyer of Michigan, was the first witness today. He told of his business relation with Hines. He also told of some circumstances during the election of Senator Lorimer.

Edward Tilden, president of the packing trust, followed Mr. Culver, being the star witness of the day. He was questioned by Senators Kern of Indiana, and Jones of Washington, concerning the Lorimer slush fund, amounting to \$100,000. Mr. Tilden was still on the stand when the committee adjourned at 5:30 o'clock.

Mr. Tilden, like Senator Lorimer, is an extensive holder of stock in the National packing company. Upon taking the stand he was questioned by Senators as to his knowledge of the events preceding the election of Senator Lorimer by the Illinois legislature. He denied all knowledge of a fund gotten together for the purpose of bribery in the election of Lorimer.

He said, however, that he had voted for Lorimer on several occasions, notwithstanding the fact that he was a Democrat. When asked by Senator Jones, of Washington, concerning the amount of money kept on hand by him in his office to use in the general course of his business Mr. Tilden said that that was his personal affair. He admitted, however, that he had kept as much as \$100,000 in his safe and that he had often written checks for that amount. He denied, however, that he had ever contributed for the election of Senator Lorimer, saying that he voted for him because of his personal acquaintance with the Senator.

American Yacht Won.

Special to Telegram.
Kiel, Ger., June 28.—The American Yacht Biblot won the fifth international yacht race today and so captured Emperor William's cup offered for the winner of the series. The American yacht Beaver was second. The winner of the cup is owned by Harry Payne Whitney, of New York.

Mexican Troops Under Guard.

Special to Telegram.
San Diego, Cal., June 28.—Two hundred Mexican troops from Juarez arrived in San Diego yesterday in special cars. They were taken to the Mexican line and marched to the federal camp in the Mexican town. Their guns and ammunition were securely locked in box cars and under guard of American troops while enroute.

MEXICANS

Organize to Protect Countrymen From Assault And Robbery—Fund Raised.

Special to Telegram.
Galveston, Texas, June 28.—More than 10,000 influential Mexicans who reside in Texas have formed a powerful organization to protect their countrymen from assault and robbery of their land. They will also see that lynchings are prosecuted to the full extent of the law. A fund of more than \$50,000 has been supplied to carry out the plans of the organization.

Personally we don't worry much about
the free cigars but we would like to
have some of that free soda water these
hot days.

When those poor South Carolina edi-
tors read about the free soda water and
cigars at Lenoir, won't they wriggle with
jealousy.

The Winston Journal says: "It is
awful hard to get back to Lorimer and
the tariff after having been to the cor-
onation." Wonder who they refer to. We
didn't get to the Coronation, and we
hadn't heard before that anybody from
Winston attended.

The Greenville Piedmont says: "Un-
less they quit having so many Federal
Courts it is said there will be no citi-
zens left in some of the North Carolina
counties." Well, we always knew that
we had good citizens in North Carolina,
but we never appreciated that they were
in quite so much demand as that.

There is a lot of difference in riding
in an automobile and standing aside
and taking the dust as one goes by. Some-
how when you are riding you don't seem
to realize that you are exceeding the
speed limit and it seems perfectly nat-
ural for everybody and everything to
get out of the way.

The Durham Sun says: "Take a few
swats at the causes responsible for the
flies, and you will not have so many
flies to swat." This is just the kind of
doctrine that we have been preaching
around these parts, but so far we haven't
seen very much in the way of action be-
ing taken by those in authority. We are
still waiting with interest for the com-
missioners to do something in regard to
this nuisance.

Reports from the editors at Lenoir
show that they are being treated most
royally by the good people of those
parts. They are even handing around
soda water and cigars and the dealers de-
cline to accept any pay from those wear-
ing the official badge. The editors are
accustomed to get most everything on a
quid pro basis but this is the first time
that soda water and cigars have been
dishied out on the "courtesy" plan,
that is it is about the first time that
such has come to our notice.

CO-OPERATE WITH BOARD OF HEALTH.

The county board of health has re-
cently passed some very important reg-
ulations, these have already been given
in detail in the news columns of The
Greensboro Telegram. Suffice it here to
enumerate briefly the regulations: After
July 1st the physicians of the county
will be required to report promptly all
births and deaths; to report immediately
any and all cases of infectious diseases;
and in cases where smallpox is found in
a family each member of the family and
all who have been exposed to the case,
must immediately be vaccinated unless
they have previously within five years

been successfully vaccinated.

These regulations are very timely.
They have been in force in many parts
of the country for sometime and they
have proven of much assistance to the
health authorities in controlling and
stamping out contagion, and have vastly
benefitted the general health and san-
itary conditions in the communities
where they have been in force. Guilford
is the first county in the State to have a
superintendent of health who will de-
voted his entire time to this work. On
and after July 1st, Dr. G. F. Ross, re-
cently elected superintendent of health for
Guilford county, will take up his work
and give his entire time to the better-
ment of the sanitary and health condi-
tions in Guilford county. Dr. Ross will
go through the rural districts, study the
conditions in the various localities and
instruct the farmers as to the best meth-
ods of sanitation. The Telegram is in-
formed, too, that with the beginning of
the fall term of the schools Dr. Ross will
visit all of the schools of the county
from time to time and deliver health
lectures to the teachers and pupils. The
health board has also provided that after
January 1, 1911, all pupils of the county
upon entering school must present a cer-
tificate of immunity from smallpox,
either from a recent successful vaccina-
tion or from a previous attack of the dis-
ease. These certificates must be signed
by a licensed physician.

It is provided that any teacher or
school official who allows a pupil to vi-
olate this provision will be guilty of a
misdemeanor. The board of health has
made a request that all parents co-op-
erate by seeing to it that their children are
all successfully vaccinated prior to their
entering school in the fall. This is cer-
tainly a reasonable request, and par-
ents should realize its importance. It
should not be necessary for the county
officials to bring force to bear to secure
the earnest co-operation of the citizens
of the county in any effort put forth to
better the health and sanitary condi-
tions. It is a matter of self preserva-
tion. Every man, woman and child who
is interested in the welfare of the coun-
ty, themselves and their neighbors should
welcome any suggestions or regulations
that the health board or county superin-
tendent of health may make looking to
the betterment of these conditions.

The Greensboro Telegram believes that
every citizen in Guilford county will join
heartily in this movement and will up-
hold the hands of the health board in
every forward step that they may take.
The Greensboro Telegram shall be ready
at all times to lend its influence for any
movement for the betterment of health
and sanitary conditions.

SUCH A PITY.

Witness Cook, before the Lorimer in-
vestigation committee Tuesday, involved
President Taft and Governor Deneen of
Illinois, in the disgraceful affair con-
nected with the election of Senator Lorimer.
President Taft has already entered a
most vigorous denial, and it is certainly
to be hoped that the further investiga-
tion will fail to reveal any substantia-
tion of the charges that the President
of the United States was in any way
connected with this scandalous affair. Of
course if the President or the Governor
of the great State of Illinois was in-
volved in any way this fact should be ex-
posed, but it is certainly to be hoped
that no such connection as witness Cook
alleges existed. The Greensboro Tele-
gram will certainly not convict the Pres-
ident of any wrong doing here until it
is proved conclusively that there was a
connection. It is indeed unfortunate
that from time to time the highest of-
ficials of the land are brought into such
compromising situations. Some political
methods seem to fail to take into consid-
eration that there is a standard of hon-
esty and decency and stoop to the very
lowest depths. It is to be hoped that
the present investigation before the com-
mittee of the Senate shall ferret the
whole matter to the bottom and that as
a result this great legislative body may
be purged of such unfortunate condi-
tions. The sooner the investigation is
over the better the people will be sat-
isfied. They are tired of the whole mat-
ter and are anxious to see their repre-
sentatives whose time is now occupied in
the investigation giving their attention
to something more profitable.

A Popular Fallacy.

A growing boy in a factory town had
obtained a small job—his first—and was
boasting of the amount of work he did.
"I gets up at half past five o'clock
and has my breakfast," said he.
"Anyone else get up, too?" he was
asked.
"Oh, yes; mother. She gets me break-
fast and then she gets dad's at half past
six."
"And your dinner?"
"Oh, mother gets that, too, and then
she gets father's."
"Has she the afternoon to herself?"
"Oh, no! She cleans up, looks after
the children, and gets supper for dad and
me when we come home. We gets our
smoke and then we gets to bed."
"And your mother?"
"Well, she does a bit of sewing then,
when all is cleared up after supper."
"What wages do you get?" the boy
was asked.
"Oh, I get seven dollars, and dad gets
twenty."
"And your mother?"
"Mother! Oh, she don't get no wages.
She don't do no work!"

Sense in Short Sentences

True commercial success consists in

The Cat's Fault Again.

That dear little boy with golden curls
was in his usual inquisitive mood. And
the weary, worried uncle was in his usual
comfortable chair.

"I want to know something," began
Willie. Uncle made no reply.

"Uncle, I want to know something,"
said Willie again.

"Sh!," answered uncle, "I'm dozing."

"Yes; but, uncle—"

"Be quiet."

"I want to know—"

"Well, you can't!" snapped the uncle
angrily. "Have you never heard that
curiosity once killed a cat?"

"Killed it, uncle?" exclaimed Willie,
much impressed. "Well, never mind
about what I wanted to know, then!"

"Good boy!" nodded uncle.

"But, uncle," said Willie, after a short
pause, "what was it the cat wanted to
know?"

DEMOCRATIC CONFIDENCE EVIDENT IN CAPITOL

Leaders of The Party in Washington Still Confident of National Victory Next Year—Taft Certain to be Re-nominated by Republicans—Champ Clark's Strong Talk.

(By RALPH M. WHITESIDE.)
Special to Telegram.

Washington, June 28.—The announcement that Senator La Follette was out for the Republican presidential nomination has not created any excitement in political circles here. It has been no secret that the Missouri statesman wanted Mr. Taft's place at the head of the ticket and would make a fight for it, but not even the most enthusiastic insurgent will go so far as to say that he will get it.

As a matter of fact so far as Washington opinion is concerned, Taft has the nomination "roped together and branded." It is not believed that there will be enough opposition to him in the convention to make it exciting.

When it comes to the election, however, there is another story to tell. You can't meet a Democrat of any prominence here who is not absolutely confident that the next President will be of his persuasion. If any there be who have doubts they do not express them. Whether it be Clark or Harmon, Wilson or Bryan, or some other man less prominently mentioned right now who is pitted against the President, the Democrats are sure he will be the man to send Democratic messages to a Democratic Congress after March 4, 1913.

And there are Republicans who fear this Democratic confidence may have foundation in fact. A very wise old Republican once made the remark that "there is nothing so uncertain as a sure thing in American politics," and this remark is worth remembering these days.

Talking about Presidential possibilities your uncle Champ Clark made a very pretty play the other day which is not going to do him any harm.

The department heads do not like the idea of subordinate employees going to Congress with whatever grievances they may have and have rules issued forbidding it.

Speaker Clark came right out in meeting and said harsh things about this gag rule. Among other things he said: "The gag rule to the effect that employees of the government shall not petition Congress or any member of Congress about their wants, or for redress of their grievances, first issued by President Roosevelt and made stronger by President Taft, is undemocratic and un-republican."

"So far as I am individually concerned, I have never paid the slightest attention to this gag rule. I talk to all government employees who come to me about anything."

"I tell them that they have a right to talk to me. I may not agree with them in all their ideas about improving their condition but they have a right to be heard, and so long as I am Speaker the doors of the Speaker's room open inward so far as they are concerned. Free speech is one of the fundamental principles of the American people."

"I have no doubt that government employees have a good many things to complain of and a good many things to suggest for the good of the public service. They ought to be heard, and so far as I am concerned they will be heard."

That's pretty strong talk.

Fakes made while you wait! The government ought to be ashamed of itself, but instead of that it retains a man especially to perpetrate them. It is no near-faking either, the government work is exacting and when the duplicate specimens are completed there is no telling which is the original and which is the imitation. There are probably few men of similar calling in the world, and fewer still that are clever in that line.

The National Museum has dug up a son of Wizard Jack Hendley, who in his day was the premier imitation man of the United States, and they now keep young Will Hendley busy all the time making something look like something else. It seems to be a peculiar gift, and is valuable in a museum. He works chiefly in plaster, making casts of anything and coloring them so that they look like the original, and he seems able to reproduce a counterfeit of anything from a raw oyster to a stone idol. There are a good many tricks in the trade that have been handed down from father to son, such as reproducing the bloom of a peach or scraping an apple to get vegetable wax that will make the surface of a plaster apple look like the original fruit.

The re-arranging of the national collections in the new museum building entails a lot of work on all the specialties

of the big institution. The hall of religions is a wilderness of Chaldaean inscriptions. Egyptian carvings and among other things the big sacrificial stone ten feet across from the Temple of the Sun of Mexico. Nobody would think for a moment that it was not the original stone, but as a matter of fact it is all plaster, cast in sections and put together around a circular wooden framed work. It is more or less chipped and cracked in removal, but Hendley has worked it over until the stone, if anything, rather better than new, even to the aged weather marking of the surface.

If there is anything that the museum cannot get in the original form, from a rare trilobite to a Corinthian fresco, it can turn Hendley with the original, and he can make an imitation that would fool an expert. It is a curious trade, this legitimatized faking, and the only reason for not extending the account and telling of some of the other remarkable things that have been done in the venerable institution, is to prevent the impression getting abroad that there is nothing genuine on exhibition there. The genuine generally outweigh the imitation antiques, but there are a few antiquities that cannot be made while you wait.

WE'RE NOT DOING OUR BEST

If We Were, We Would Not Have to Die in Order to Reach Heaven.

How mankind defers from day to day the best it can do and the most beautiful things it can enjoy, said H. W. Mable most truthfully. It does seem that many good people are putting off real enjoyment until they get to Heaven, never thinking that that is a very slow and risky way of getting there. Some people think that getting into Heaven is going to make a great change, when the fact is the ascent will be so gradual as to make little difference. The Bible is full of this idea.

The doctrine that an old crusty, selfish, deceitful, neighbor-hating man will turn into an angel at the pearly gates is not scriptural, and it does not stand to reason. No, sir; a man gets to Heaven because he belongs there; because he has made the best of life, has done the kindest things, helped the weak, filled his days with cheer, good will and good works, and decked his life with the beatitudes of his Master.

We are not doing it so well as we might, as Mr. Mable suggests. No one does his best. No one enjoys the most beautiful things. If we did, we would not have to die to get to heaven. We would then be doing our part in answering the prayer, "Thy kingdom come on earth as it is in heaven."—Ohio State Journal.

BABY WORKS FOR HIS LIVING

Infant Is Found in London Who Hooks Eyes on Cards for His Poor Mother.

A baby aged two and one-half years who works for his living by hooking eyes on a card for his poor, working mother, has been discovered in London.

"Gravely and industriously this baby toiler placed hook after hook in its place on the cord, saving a few minutes every hour to the mother who earns three shillings a week at the most monotonous, weary, treadmill type of woman's work that exists. There are 12 hooks and eyes on each card, and the worker is paid tenpence for every gross of cards. First she sews the hooks on the cards and the child links each hook with an eye. Then the eyes are stitched in place."

In Great Britain there are 200,000 school children in full attendance who work out of school hours for wages. There are between 80,000 and 90,000 half-timers who do a half-day in the factory and a half-day in the school, whilst the full-time workers between thirteen and fourteen years of age probably number 300,000. From these statistics alone it can be seen that over half a million children under fourteen years of age are breadwinners. There are 120,000 factory children under fourteen and nearly 400,000 children and young persons under eighteen years of age working in the factories.

GROWTH OF INTEREST IN HOME AND FOREIGN MISSIONS

Is Probably Greatest in History of Church—Some Figures on Denominational Contributions to Missions—Church News From Around The World.

(By D. V. FRANCIS.)
Special to Telegram.

New York, June 28.—One of the most gratifying signs of the times in the world of religion is the steady growth of interest in the work of missions.

Never in the history, except perhaps at the very beginning when Paul was at the height of his activity, has the church shown so strong a determination to obey the injunction of the Master to "go forth and preach the gospel to all the world."

The laymen's movement is an indication of this, so is the tent and shop meetings which cover the whole city of New York this summer, and are spreading to other cities. There are others, but perhaps the most striking is contained in the reports which have been received from fifteen of the eighteen missionary societies in America which closed their fiscal years last spring, showing a total gain in receipts for 1910-11 of \$195,000 from individuals and churches. Somewhat more than this was received from legacies.

Beginning about 1900, receipts of most Protestant Societies increased rapidly as some of them getting since then as much as they had in all the years before that. The extent of the interest is shown by the fact that fully 15,000,000 persons contributed. Missionary contributions for work in America alone amount to \$40,000,000 a year, while \$11,000,000 a year goes to foreign lands. The number of persons engaged directly in the missionary propaganda in America and in non-Christian countries supported by American money runs into hundreds of thousands.

Presbyterians North gained for foreign work \$191,667. Its average increase during the last ten years has varied from \$20,000 to \$100,000 a year. The same body, in its home work, increased \$84,516. Presbyterian laymen have pledged \$76,000 for work in Korea, not included in the foregoing figures. Baptist and

Methodist organizations of laymen are co-operating with the general one. Episcopalians have a forward movement that seeks not only to keep up present gifts, but raise an added \$500,000. From all quarters have come reports of large and enthusiastic meetings, with increases in pledges, especially to foreign missions.

It has fallen to English students to discover "that the ravens" which fed Elijah in the wilderness, when he was fleeing from the vengeance of Jezebel were not birds at all, but were the inhabitants of a neighboring village called Osbo, which being translated means Raven. Just how they made this remarkable discovery is not made plain but the announcement was made at a very remarkable exhibition at the Natural History Museum, South Kensington, London, of the animals, plants, and precious stones mentioned in the Bible. A picture of the Biblical dog, with a reference to Proverbs XXX, revealed the most interesting point that the species was the African deer hound, a splendid specimen of which made a sensation, as a new introduction, at the principal dog shows in London two years ago. The botanical cases are of great interest. "Tares" stand for "darnel" a weed with poisonous seeds, at first indistinguishable from wheat, a point adding much to the symbol of the parable. Manna is a pea-like lichen which is often blown by strong winds into the Syrian valleys, where it is collected. Among the many herbs, mint is shown as the plant that used to be eaten with the Paschal lamb. Aaron's blossoming rod was an almond.

"The seven ears on one stalk" of Pharaoh's dream is a very fair description of the mummy wheat—which, by the way, experiments are being made with in England—a very characteristic ear was shown. The several cases filling one bay of the great hall are guarded, as it were, by a huge specimen of the dugong, the

seal-like creature said to be the original of the mermaid. It's skin was used in roofing the temple.

Mr. J. Pierpont Morgan, of New York, a zealous Episcopalian, has contributed money recently to the Catholic commission for the revision of the Latin Vulgate, or Catholic version of the Bible, and has entered into that commission's plans to photograph pages of his "The Golden Gospels." He has also presented a volume of photographs of the collated texts. The commission, appointed by Pope Pius X and now at work two years, is searching the libraries, cathedral records and treasures, and private collections of all Europe for documents to show the basis of St. Jerome's translation. Oddly, the Latin texts from which the present Catholic version of the Bible was made has disappeared. Wonderful success has been made in the search for them. Just now examinations are making in England, but libraries in Austria, Holland, Spain, and France, following those in Italy, have already been searched. The plan has been hit upon of photographing every page of these rare volumes and portfolios and making duplicate copies so that members of the commission and scholars who are to co-operate with them may have copies for separate and quiet study. A Bible revision made with remarkable care and with all the learning of the Catholic church brought to bear is to be the outcome.

The members of the Carr's Lane Congregational church, Birmingham, have decided that the Rev. George McLuckie, B. A., of Great Yarmouth, be called to the pastorate in succession to Dr. Jewett. A new trust deed provides that ladies shall be privileged to vote for the election of pastor, and this was put into effect for the first time. No other name was substituted, and though there was some slight opposition the resolution was carried by an overwhelming majority, amid loud applause.

Gen. William Booth, founder of the Salvation Army, and now in his eighty-second year, sends word from London that he will come to America this fall. He writes that he is intensely interested in the busily laboring for London social conditions, especially among the extremely poor, so that he must once more inspect his army in America. Less has been heard of the army than in former years, but late reports indicate that both its work and its income are larger now than ever before. While neglecting no part of its relief work, the

DAILY MARKET REPORTS

WEATHER FORECASTS.

Louisiana—Generally fair tonight, Thursday cloudy, probably showers in southeast.

Arkansas—Tonight and Thursday increasing cloudiness, showers in north.

Oklahoma—Unsettled, showers tonight and tomorrow.

East Texas—Increasing cloudiness.

West Texas—Generally cloudy, showers in Pan Handle.

North Carolina—Local showers, slightly cooler in central portion.

South Carolina and Georgia—Fair, probably local showers tomorrow.

Florida—Fair tonight in north and central portion, Thursday showers in south portion.

Alabama and Mississippi—Unsettled, local showers.

COTTON LETTER TO J. E. LATHAM.

New Orleans, June 28.—Liverpool is steady and readily follows any improvement in new crop values in our markets. Spots 11 higher, sales 7,000. The map shows cloudy weather in Oklahoma and west Texas. Generally fair in east Texas. .01 precipitation at Amarillo and .86 at Houston. Out of 49 government stations in Texas only one had a rainfall of .90. No rain in Oklahoma but temperature average lower, 98 degrees for the State. The central and eastern States are part cloudy to fair with rather general showers, heaviest in Alabama and west Mississippi, and 3.10 at Rome, Ga.

Our market opened two higher on new crops and advanced quickly to 13.18 for October on the absence of relief in the West and a rather bullish report by the Journal of Commerce on the Carolinas. However, as soon as the government forecast was published saying unsettled weather and showers for Oklahoma and west Texas, increasing cloudiness in east Texas, there was a general rush to sell which broke prices ten points.

Prospects, as reflected by today's map are some cloudy weather in northwest Texas and Oklahoma and possible scattered showers; part cloudy to fair in Texas, but there are no indications of general rains such as are needed. In the central and eastern States cloudy, showery weather will continue.

GRAIN AND PROVISIONS.

Chicago, June 28.—The Chicago market issues the following bulletin:

Wheat—The market opened easier but turned strong shortly after the opening with the July delivery leading the advance. On the advance the offerings became heavy and prices broke sharply. Weather conditions were considered more favorable, particularly in the northwest where further good rains were reported. Offerings of the new wheat to come to this market were more liberal and fair sales were reported on the basis of about a half cent under July for shipment by July 20th. With the market as erratic as at present, it is hard to form an opinion, but we are rather inclined to favor purchases on weak spots for moderate profits.

Corn—Rains in Kansas and predictions of showers over the Western portion of the corn belt caused a weak opening and considerable liquidation. On the decline there was a good class of buying and a new feature entered into the market in the way of renewed export inquiry. Receipts finally show signs of a permanent decrease and the July delivery was relatively firmer than the more distant futures. We are strongly inclined to favor the long side on all weak spots.

Oats—The market shared in the weakness of other grains, the selling being a liquidation of weak longs and professionals. We see no reason whatever to change our opinion regarding ultimately higher prices. While present stocks are large, we believe they will all be wanted and outside points have pretty well depleted their stocks of oats.

Provisions were sharply lower early, especially July, under liquidating sales, no doubt helped on by the five to ten cent decline in hogs.

SPECIAL REPORTS.

New York, June 28.—The Journal of Commerce special reports for today are as follows:

North Carolina—It has been very dry but cotton has stood the drought well and the plant is generally strong and healthy and of good size. Rains have been very beneficial and improvement for the month has been marked. Only on stiff lands does cotton look poorly and here rain is needed. Sandy soil is particularly promising. Fields are well cultivated and insects are giving no trouble. Stands are commonly poor and spotted owing to drought, but barring unfavorable conditions, many correspondents look for a big crop.

South Carolina—On account of the long drought stands are very irregular and generally poor, but cotton is clean and healthy and doing very well where it came up early. Late planting and replanting have been slow in germination but recent rains have greatly improved the prospects and the percentage condition is now several points better than a month ago. There is some complaint of lice and blight but damage thus far is slight. Some sections are enthusiastic over prospects and report the best season in years.

Florida—Reports say that the prospects are very promising.

Do You Read the WANT ADS?

Have you found out what interesting news is contained in the want page? There is a reason why want ads are interesting to everybody. Supply and demand create a market. The man who has an article which he has no further use for, with the assistance of a little want ad, can find readily the other man who is looking for just that article. On the other hand the man who is looking for some particular article can find the man who has it and who it perhaps has not occurred that he can sell it, thus by means of the want ad purchasers and sellers for small articles get together.

Try a Want Ad in The Telegram, it makes no difference what you want, tell it here.

NORTH STATE CAPITAL NEWS

Special to Telegram.

Raleigh, June 28.—Friends throughout the state are receiving a significant circular letter in the interest of the candidacy of ex-Governor Chas. B. Aycock for the United States senatorship to succeed Senator Simmons. It is an attractive folder and contains the formal announcement of the ex-governor that, yielding to importunings of friends in every section of the state, he had decided to enter the race. And following this there are given clippings from newspapers all over the state and from individuals endorsing the Aycock candidacy, the showing that the folder is intended to make believe that Gov. Aycock is welcomed into the race as the "people's choice" for the senatorship.

Adjutant General Sale, of the Virginia National Guard has written Adjutant General Leinster, of the North Carolina National Guard, that he accepts the invitation to take a team of sixty men to the rifle range at Morehead July 15 to 25 for a practice shoot preparatory for picking a team to represent Virginia at Camp Perry in the fall. Virginia, it seems, hasn't a range just at this time that can be used for this practice work to as good advantage as they can the Morehead range in this state. General Sale will be at Morehead a part of the time that both the Third Infantry and the Second Infantry will be encamped there. The encampment dates are, Third, July 10 to 27; Second Infantry, July 22 to 27; Coast Artillery, August 3 to 19 at Fort Caswell.

Governor Kitchin pardoned today Tim Holderfield, serving ten years in the penitentiary as an accomplice of Earl Cotton in the murder of W. E. Smith, of Richmond, traveling salesman for a coal company there, three years ago. Cotton is serving thirty years and a second accomplice, Red Hopkins, has served his two years sentence. Holderfield was clerk for Cotton in a near bar saloon where Smith was drugged before he was robbed and thrown into the Rock Quarry where his body was found on a Sunday morning. Governor Kitchin states that Holderfield was in the

employ of Cotton and acted under his direction, the police justice, the trial judge and jury, solicitor and others joining in recommendation for pardon, he not being regarded as a vicious man. The pardon is conditioned on good behavior.

E. W. King Died Early Last Night

The sad death of E. W. King came last night at St. Leo's Hospital at 8:45 o'clock, following an attack of typhoid fever, with which the deceased suffered for several days prior to the end. Mr. King has long been a citizen of Greensboro, residing on Belmeade street with his family. He is survived by his wife and two children.

For the past year Mr. King has been at work near Winston-Salem, and returned home last Wednesday when he felt the first attack of the disease. He was carried to the hospital and although he received the best medical attention, the case throughout the brief battle for life was a serious one and he succumbed quietly after struggling for a week. The funeral service will be held this afternoon at 5 o'clock at the home, Rev. Melton Clark, pastor of the Presbyterian church, of which Mr. King was a loyal member, conducting the service. The interment will follow in Green Hill cemetery.

HEIRS TO THRONES BID KING GEORGE FAREWELL.

London, June 28.—The heirs to most of the thrones of Europe, the other princes and princesses and special ambassadors who have been royal guests during the coronation period have said farewell to King George and Queen Mary and the greater number have already left London.

Today special trains bound for the coasts followed one after another. The Duke of Connaught attended each departure on behalf of his majesty, while the regular embassies were present to say good-bye to the envoys of their respective nations.

The great coronation fleet at Spithead also has dispersed, the foreign warships saluting the flags of Great Britain and the commander in chief as they passed out. King George spent most of the day among the farmers at the royal agricultural show in Norwich.

A Record-Breaking Passenger List.

New York, June 28.—The largest number of passengers ever leaving this port on a single ship boarded the White Star liner Olympic, the largest steamer afloat today, sailing for England. The Olympic started on the second half of her maiden trip with 2,205 persons in her three cabins, besides sixty maids and valets, this breaking all previous records for numbers.

Women and Society

Lawn Party.

The Philathea class of the Spring Garden M. E. church will give a lawn party Friday night on the church lawn for the benefit of the class.

The public is cordially invited.

Fellow-Crews.

Yesterday afternoon at 4 o'clock in the parlors of the Guilford Hotel, Rev. T. J. Ogburn officiating, Isaac P. Farlow, of Randolph county, and Miss Minnie Crews, of Rockingham county, were united in marriage. Only a few friends witnessed the ceremony. Mr. and Mrs. Farlow left at 6 o'clock for their future home in High Point.

Crews-Harger.

Yesterday at noon in the parlors of the Guilford Hotel G. C. Crews and Miss Kate Harger, of Madison, were united in marriage, the ceremony being performed by Rev. D. M. Litaker. Mr. and Mrs. Crews left on No. 38 for a trip to northern cities. The groom is a conductor on the Mt. Airy to Sanford division of the Southern and is held in high esteem by hundreds of friends in this city and elsewhere. The bride is a lovely young woman and has many friends in her home town.

Tankersley-Bishop.

The wedding of Miss Bonnie Catherine Bishop to Dr. James William Tankersley occurred last evening at nine o'clock at the home of the parents of the bride, Mr. and Mrs. John Charles Bishop, on Frisco street. The wedding was a quiet home affair, only close relatives and intimate friends of the couple being present, but the marriage was nevertheless beautiful indeed in the simplicity of the details and the charming effect of the entire event.

The front parlor of the Bishop residence was charmingly decorated with potted plants, sweet peas, and smilax in profusion and a lovely background was thus woven for the picture presented by the bridal party during the ceremony, which was performed according to the Catholic ritual by Father Vincent Taylor, of St. Benedict's Catholic church. Immediately after the assembling of the guests and before the appearance of the bridal party, Mr. Lawrence Duffy sang "O Promise Me" with charming effect. The entrance of the bridal party was made when the beautiful and stirring strains of Mendelssohn's Wedding March, rendered by Miss Blanche Holt, of Oak Ridge, reverberated through the rooms.

The bride entered first leaning upon the arm of her father, J. C. Bishop, who gave her away. She presented a lovely appearance in her handsome Princess gown of ivory satin trimmed in pearls and duchess lace with a bridal veil and a large bride's bouquet of orange blossoms. She was followed by the maid of honor, Miss Mattie Bishop, a younger sister, groomed attractively in a creation of blue marquisette over blue satin, handsomely embroidered and trimmed with pearls. Miss Bishop carried a pretty bouquet of roses. The groom, accompanied by his best man, Ed Tankersley, a brother, of Charleston, S. C., then entered the room and joined the remainder of the party at the altar, where the young couple pledged their troth by the binding words of Father Taylor.

Reception to Guests.

A quiet and informal reception to the guests at the wedding was held at the home immediately following the ceremony. At midnight Dr. and Mrs. Tankersley departed on the eastbound train for Morehead City, where they will spend a honeymoon of two weeks. They will then return and make their home in this city. Dr. Tankersley having built up a fine practice in this vicinity. Among the relatives and friends of the couple who came from a distance to attend the wedding are the following: Miss Mary Dorsey Sipe, of Harrisonburg, Va.; Miss Blanche Holt, of Oak Ridge; Mrs. H. H. Taylor, aunt of the bride, of Shenandoah, Va.; A. Tankersley, father of the groom, of Salisbury; Ed Tankersley, of Charleston, S. C., and Mr. J. O. Hansberger, of Elkton, Va.

Tinsley-Sloan.

Last evening at 8 o'clock at the First Presbyterian church Miss Annetta Wright Sloan and Cecil James Tinsley were united in marriage. Rev. Melton Clark officiating. The church auditorium, the scene of the wedding, was filled completely with friends of the contracting parties.

The ceremony was not planned on an extensive scale but was an interesting and pretty affair. The church and altar formed a bower of green for the scene of the marriage. As the visitors were assembling Prof. Claude Robeson, presiding at the organ, rendered beautifully the "Toccata" by Boellmen. Two delightful violin selections by Miss Phyllis Woodall followed, respectively the "Love Song" from Nevis and the "Humoresque" by Dvorak. As the contracting parties with their attendants began the passage down the central aisle, Lehengrin's processional was rendered by the organ and violin.

The ushers, Bruce Tinsley, of Pana-

ma, a brother of the groom, Robert Sloan, John Gimer, and Dr. Bruce James, of Danville, preceded the principals in the entrance. Then followed the bride, Miss Sloan, who looked exceedingly lovely in her bridal costume consisting of a handsome princess robe of lace with rose point trimmings and an elegant bouquet of sweet peas and roses, in company with her maid and dame of honor, Miss Daive Duffy, of Wilmington, groomed becomingly in embroidered marquisette, and Mrs. A. R. Perkins, in a pretty dress of chiffon over pink messaline. The groom with his best man, a brother, Mr. James Tinsley, met them before the altar and in a few moments the pair were man and wife. Throughout the progress of the ceremony Schubert's "Serenade" was rendered in soft and beautiful tones from the organ and violin. For the recessional Mendelssohn's "Wedding March" was rendered.

The wedding guests, the bridal party, and the newly-married couple immediately proceeded to the home of Mr. and Mrs. Garland Daniel, on West Washington street, where a reception in honor of Mr. and Mrs. Tinsley was held. The bride and groom departed on No. 38 for New York, the Great Lakes and Canada. After about two weeks they will return to this city and will be at home to their friends at the home of the bride's mother on South Eugene street.

Mrs. Tinsley is the attractive and popular daughter of Mrs. T. J. Sloan and has won a large place in the hearts of many people in this, her native city. Mr. Tinsley is a traveling salesman for a Lynchburg concern and is a prominent young business man.

Donnelly-Lea.

The First Presbyterian church at 8:30 o'clock was the scene of a wedding of importance socially, the contracting parties being Miss Marion Carlyle Lea, a brilliant leader of local society, and Ferron William Donnelly, a traveling salesman, formerly of Chicago, but recently of this city. The event was witnessed by a large number of the friends of the couple, the auditorium of the church being completely filled with people.

The church, with its artistic decorations of green and potted plants and the altar in the centre covered with flowers, was a fitting accompaniment to the prominence and beauty of the occasion.

The bridal party at the ceremony was unusually large, eight bridesmaids being in the procession to the altar. They were: Misses Elizabeth Lea, of Richmond, a cousin of the bride; Rena Angus King, of Richmond; Willa Strange, of Danville; Mary Vanstory, Edith Muir, Maie Lindley, and Mrs. Sidnor DeButts. These young ladies were attired in white lingerie dresses, heavily trimmed with val lace with pink shades and girdles and each carried a handsome bouquet of pink saffrona roses. H. P. Cooley, of Richmond, Va.; Leonard Guy, of Westminster, Md.; Bruce Stevens, of Petersburg, Va.; Roger Jennings, Ben Sharpe, Martin Douglas, Harry Cunningham, James T. Morehead, Jr., and Lowrey Stafford served as ushers.

Immediately before the entrance of the bridal party, with the accompaniment of Mr. Claud Robeson at the organ and Miss Phyllis Woodall on the violin, Mr. Robert Westbrook sang several love lyrics with charming effect. Then, marching to the tunes of the wedding march and preceding the principals came the bridesmaids and the ushers. The maid and dame of honor, Miss Mary Isabella McAdoo and Mrs. William D. McAdoo, both groomed beautifully in imported dresses of white marquisette over white taffeta satin and carrying pretty bouquets of white roses, came down the aisle. They were followed by the bride, leaning lightly on the arm of her father, Mr. Charles MacCauley Lea and dressed in a beautiful creation of white duchess satin trimmed with lace and pearls. She carried a shower bouquet of lilies-of-the-valley, and her bridal veil was daintily held away from her face by a spray of

the same flowers. The bridegroom next entered with his best man, Guy E. Eckenrode, of Westminster, Md., and joined the party waiting at the altar and the binding words, spoken by Rev. Melton Clark, pastor of the Presbyterian church, and repeated by the couple, soon made them man and wife. An appropriate air was softly played on the organ throughout the ceremony by Prof. Robeson, and a stirring march was given for the recessional down the aisle. Miss Frances Long, dressed becomingly in pure white, preceded the couple toward the door and strewed a pathway of pink roses for the footsteps of the bride.

Immediately following the ceremony Mr. and Mrs. Donnelly departed on No. 38 for a honeymoon of two weeks at resorts in Canada, Lake George and Lake Champlain. They will then return to this city, where Mr. Donnelly will make headquarters, and will be at home to their friends at the residence of the bride's parents, 1014 Summit avenue.

Mr. Donnelly is an enterprising young man and has rapidly pushed his way to the front division of his company's travelers. His bride is the beautiful and attractive daughter of Mr. and Mrs. C. M. Lea and by her accomplishments and charms is one of the acknowledged leaders of the young members of Greensboro society.

Who is Your Favorite Baseball Player?

Do You Know His Complete Record?

Gainor, Tigers' New First Sacker

Besides Grabbing All Pegs and Hits Coming His Way, He Is Batting Like a Streak

Photo by American Press Association.

You can have his complete record up to and including the 1910 playing season and the records of all other players in any of the organized leagues. All you have to do is to procure a copy of "Facts for Fans," which you can only get from the Greensboro Telegram. Elsewhere in this paper you will find a coupon which when properly filled out, together with 11 other coupons will entitle you to one copy of "Facts for Fans," giving a complete record of all baseball happenings, rules, individual averages, team averages, and most any other information you may desire.

What You Have to Do:

Begin with today's coupon and save one each day until you have 12 consecutive numbers. Present these at the office or mail them in (when mailing send two cent stamp for postage), or for ONE NEW SUBSCRIBER AND ONE COUPON you may have one of these little books full of interesting information.

If you don't want to take the trouble to save 12 of the coupons, bring in a new subscriber somebody who is not now taking the paper, and one coupon. We don't require that you bring in any money for the subscription but if the subscriber will pay you in advance we will allow you, in addition to the copy of "Facts for Fans", a commission of 10 per cent. on the amount paid. You will find the subscription price on page 2.

TARIFF CHANGES SEEM PROBABLE

Many Republican Senators Threaten Retaliation.

WILL SOON HAVE A CHANCE.

Free List Bill and the Wool Schedule Will Show Whether or Not They Will Stand Up to Be Counted—Republican Opponents of Reciprocity Bill Are in a Fighting Mood.

By ARTHUR W. DUNN.

Washington, June 28.—(Special.)—Will those Republicans who have declared so emphatically that they will vote for tariff reductions stand up and be counted when the free list bill and the wool schedule reach the senate? If those who say they will retaliate on the protected industries because the representatives of protected states are putting through the Canadian reciprocity bill there is a possibility of quite an extensive revision of the tariff at the present session and the regular session next winter.

It did not take a very long discussion of the Canadian bill to show that the Republican opponents of that measure are decidedly sore and in a fighting mood. They showed that they felt they were being sacrificed and they were ready to abandon the protection principle in order to get even. If they do not change their minds the country may expect a general lowering of tariff duties.

Peril of Precedent?

As Champ Clark seems to loom large upon the presidential horizon here come the fellows with precedents to show that he does not stand much of a chance. "Only one speaker of the house has ever been elected," they say, as if that settled it. "Blaine, Reed and others failed," they assert, not forgetting Henry Clay.

Now, it is a curious fact that precedent was against the election of Taft. Not since 1825 had a member of the cabinet been nominated for president. In fact, none of the men elected in that time had ever held cabinet positions. And yet Taft overcame the precedents. Roosevelt smashed precedents. And Champ Clark may do the same.

Canny Willis Moore.

They did not catch Willis Moore, chief of the weather bureau, making any wild predictions of weather conditions on the silver wedding anniversary of the Tafts. Two years ago he predicted fine weather for the inauguration and was caught in a disastrous blizzard—a "dareback," the weather men called it. No more of that for Moore.

President Taft was anxious for good weather for his big party and had the bureau telephoned frequently, but the most he could get out of it was "unsettled." The weather was really ideal, though somewhat threatening. Moore wasn't going to take any more risks.

Had Them in "Whites."

Mrs. Taft certainly made a great hit when she requested that all the army and navy officers attending the silver wedding party should appear in their white uniforms. It added very much to the picturesque feature of the evening and made the military side of the entertainment much more brilliant. Mrs. Taft, an officer explained, wanted the occasion to look as much like the Philippines as possible.

A Curious Condition.

A situation so marvelous that senators of long experience like Gallinger and Penrose commented upon it arose in the senate. There was no one ready or willing to talk. Where be the senators of yesterday? In days gone by when the oldsters were youngsters there were Stewart, Call, Teller, Allen, Peffer and a dozen others who were willing to "fill in the gaps," as Gallinger expressed it.

But for a time when the Canadian bill was taken up it seemed as if the senate's long suit, conversation, was disabled. But it was not for long. Brave men, willing to sacrifice themselves rather than that the senate should lose its famous reputation, came forward, and language flowed freely.

Cannot Force Them.

Everybody is aware that if there is ever a vote on the bill for service pensions, which will add about \$45,000,000 to the pension roll, it will go through the house with a big majority. But the house leaders do not want that pension bill passed, and so far they have been able to stave off a vote. The leaders have shown that they will do about what they want to do and will not be forced to that which they do not want. Several times the Republicans have maneuvered to "put them in bad," but they have carefully sidestepped.

Bailey Offers Battle.

Senator Bailey of Texas has always been ready to meet any man in debate in the senate. When Spooner was there he was ready for a battle with the little giant of Wisconsin. It has always been asserted that Senator Root is one of the great intellects of the present day, and ever since the New Yorker entered the senate Bailey has shown a disposition to enter the lists with Root. Of late Bailey has shown a real eagerness to engage Root in a senate battle either upon constitutional questions, legal questions or, more especially, the tariff. Bailey has that supreme confidence in himself which makes him aggressive.

CONGRESS DOES FUTILE TALKING

Few Listen to Speeches and Few Read Them.

SPLIT LIKELY IN MISSOURI.

Senator Reed Announces That He Favors Former Governor Folk For President, but Speaker Clark Is Not Alarmed and Says He Can Get State Delegation if He Wants It.

By ARTHUR W. DUNN.

Washington, June 28.—(Special.)—What becomes of all the congressional speeches? The senate is just beginning on a series of speeches which will fill volumes, and the house has literally talked itself out on three different bills.

A strange spectacle was presented in the house when there was really nothing more to say on the subject of the tariff, or at least there was no one who wanted to say anything, and the debate ended with floods of oratory actually unchecked. Who reads these speeches? Perhaps a very few people who are marooned where they cannot get anything else, or maybe one person in a million has a taste for that kind of literature. But it is a safe assertion that a less per cent of the people read these speeches than listen to them, and it is notorious that few of the speakers have any auditors.

"Home consumption" scarcely explains the amount of talk, for the average congressman must know that even his own people will not read the speeches. It must be merely the desire to talk in congress that produces so much oratory.

Split in Missouri.

Outside of Missouri more people in Washington than anywhere else were interested in Senator Reed's announcement that he was for former Governor Folk for president. Naturally a number of Champ Clark's friends mentioned the matter to the speaker, but they did not find him very much disturbed. "If I want the delegation from Missouri," he told some of them, "I can get it."

There were also men who recollected that a state delegation in favor of a man did not always mean his success. Cleveland was nominated in 1892 with the big New York delegation solidly against him. But there will be a lively time in Missouri before a Folk delegation is chosen.

Looking For the Cake.

Hundreds, if not thousands, of people who attended the Taft silver anniversary hoped to get a sight of the gorgeous presents, but were not surprised that they were not on view. One of the strange sights of the reception was the anxiety of a few individuals who went from place to place asking "Where is the big cake?" A story was afloat that there was a wedding cake big enough so that every one of the 10,000 guests might have a piece, and some of those present decided to have their share.

Whom They Wanted.

A youthful bridegroom sat in the speaker's anteroom waiting to see him. After awhile Mr. Clark came out of his private office and went over to them.

"We want to see Speaker Cannon," said the man.

"But he isn't speaker any more," said Clark, who supposed that every body was aware that there had been a change of house rulers. "Neal," he called to the messenger, "take these folks around and show 'em Uncle Joe's room."

Puzzle—Find the Insurgents.

In the house it has not been difficult to place the insurgents, but since Canadian reciprocity became a live subject in the senate it is difficult to find the insurgents. Now, no one would intimate that either Gallinger or Heyburn is an insurgent, but the way New Hampshire and Idaho jump on this administration bill you cannot tell.

Then there are Warren and Clark of Wyoming, Smoot and Sutherland of Utah, Curtis of Kansas, all so died in the wool "regular" that no one would ever suspect that they would depart from what the organization wanted. Penrose of Pennsylvania seems to be the only simon pure regular, although we must not forget the venerable Culom of Illinois, who never deviates from the straight path of regularity. But there seems to be a new crop of insurgents, and it is difficult to make distinctions these days.

Peace and Quiet.

With the Taft silver wedding festivities over and the departure of everybody who can get away, peace and quiet reign in Washington save under the dome of the capitol. There the war of words continues, but all else has settled down to that summer quiet which usually marks the season in Washington.

Senate "Joy Rides."

During the blistering days the senators found the coolest place in Washington to be the tunnel connecting the senate wing with the office building. The very hot senators began taking "joy rides" on the electric carriages which ply back and forth between the two buildings. "Those boys who run the electric wagons have got the best jobs around this place," remarked one senator who had just completed a trip.

FRECKLES GONE

"Simple Remedy from Howard Gardner Removed Them," Says Society Lady.

"The best skin specialists told me that nothing would remove my freckles and that I would carry them to my grave," said a well known society woman, "but I fooled them all with new drug, ointment—double strength, that I bought at Howard Gardner's which completely cleared my skin and gave me a fine complexion."

The action of ointment is really remarkable, for when applied at night, many of the freckles disappear entirely by morning, and the rest have begun to fade. An ounce is usually all that is needed, even for the worst case.

Be sure to ask Howard Gardner for the double strength ointment, as this is sold under a guarantee of money back if it fails to remove the freckles.

Learning to Spell.

Little Margaret, who is three years old, lived for a long time next door to a family who kept a cat bearing the name of Billy. Then she moved away from the family, and did not see the cat again.

Several days ago Margaret's mother tried to teach her how to spell cat and dog. After many efforts she succeeded in getting her daughter to spell the words after her, and stopped for the first lesson.

The day following the mother said suddenly: "Margaret, what does c-a-t spell?" She did not have to wait for an answer. Quick as a flash the child turned toward her.

"Billy," she replied.

Notes And Comment.

(By GEORGE GRANT THURSTON.)
Special to Telegram.

New York, June 28.—During his recent trip to London, Charles Frohman gobbled up about nearly every attraction available. Incidentally he predicted a few days ago that before long foreign managers would come here to get attractions for their places of amusement.

"My season in London has been most successful," said Mr. Frohman, "and my work for the coming season is so far advanced that I have been able to return home a month ahead of my time."

"I have secured plays and contracts with playwrights in America, England, France, Germany. Augustus Thomas has agreed that I shall have the comedy that he is now writing. Porter Emerson Brown has completed a new play for me called 'Sex,' and is now at work at another play. Thompson Buchanan has also completed a piece for me. A. E. Thomas is also on a play for me. I shall also have a play by Winchell Smith and a new comedy by Martha Morton, which she will deliver on September 1, as well as a new drama by William Gillette, who will finish this play during the winter before he resumes his stage work."

"I am to have the new play which J. M. Barrie is to write immediately after he finishes his 'Peter Pan' novel. I am to have the new comedy which Sir Arthur Wing Pinero is now writing, a new drama by Alfred Sutro, a new comedy by R. C. Carton, the author of 'Lord and Lady Algy.' I shall have the new play that Somerset Maugham is now writing. I have secured a new play which Heddon Chambers is now writing and a new one which is to be produced in the autumn by Hall Caine in London. Henri Bernstein, the French author of 'The Thief' is at work on a new drama that I shall have. I have a new comedy written by Caillavet and De Flers, called 'What Woman Wills,' which may be pro-

duced here before its Paris production.

"John Drew will open the Empire Theatre's season early in September with a comedy called 'A Single Man,' by Herbert Henry Davies, the author of 'Cousin Kate' and 'The Mollusc.' Mr. Davies will come to New York for the production in August. Maud Adams will again appear in New York in 'Chantecler,' and during her engagement here will give special matinees, which I shall announce as Miss Maud Adams' Afternoons with J. M. Barrie, who has written three short plays for her, running fifty minutes each. One is called a 'Little Play,' another called 'Judy,' and the other is still unnamed."

"In a 'Little Play,' Miss Adams will appear in a double role, and in 'Judy' she will appear in a most novel character, another of the Barrie surprises. Miss Adams will continue in 'Chantecler' until next July, when she will leave for England to make her first appearance in London. Her season will open in a new play, followed by 'Chantecler' and 'L'Algon.' Miss Ethel Barrymore is to follow John Drew's engagement at the Empire Theatre in a fine play by E. W. Mason, called 'The Witness for the Defense,' which has been running for months at the St. James theatre, London. Billie Burke will appear in September in a new four-act comedy called 'The Runaway,' by Pierre Veber, and adapted by Michael Morton, who adapted 'My Wife,' the play in which Miss Burke made her first appearance in New York."

Not long ago George M. Cohan, the actor manager, consulted a scenic artist about a set for a new comedy. The artist, a pompous man, invited Cohan out to lunch.

They went to a well-known cafe. The waiter who served them was a meek German, who showed by his actions that he wanted to do his best. In spite of this

the artist "called the waiter down" several times. The manager listened in silence to the kicks of his host for a while. Then, when the waiter had gone to the kitchen Cohan smiled and leaning over to the scenic artist said:

"Did you ever eat in a lunch wagon?"

"No, I don't believe that I ever did. Why?"

"I have. I have seen the time when I had to eat in one because of limited means. I had to get my own food from the cook. There wasn't any waiter in it."

"What brought it to your mind?" asked the host.

"Well," said Cohan, reflectively, "I was just thinking that this place looks pretty good and that maybe the waiter was doing his best."

Miss Valeri Berge was telling some of her earlier experiences on the stage.

"I never shall forget," she said, "an engagement I played with a stock company in Philadelphia. One week we played 'A Tosca,' and the next Hoyt's 'A Black Sheep.' In 'A Black Sheep' I was cast as Lida Skiddons. We were all members of a stranded theatrical troupe in the play, and to get tickets back to the city we all had to do a sort of vaudeville specialty. I donned a knickerbocker costume and selected a 'coon' song, 'Mr. Johnson, Don't Get Gay.' I sang it and managed to get by the first night all right. The second night after the performance I was given a big bunch of American Beauties. There was a card with the flowers, which bore merely the line: 'This is for your nerve.'"

'Cascarets' Are Best Laxative for Women

A Ten Cent Box Keeps You Feeling
Good for Months—No Headache, Indigestion, Foul Taste or Bad Breath.

All women need Cascarets. Simply because they don't exercise enough. They don't eat coarse food, or enough fruit and green vegetables. Those are nature's ways of keeping the bowels active. But very few women employ them. The next best way is Cascarets.

Nearly all the minor ills of women can be avoided by Cascarets alone. There is no need to have headache, lame backs, depression, bad breath, bad complexion. The remedy is Cascarets. Not in large doses—unless you wait too long. The best way is one Cascaret at a time—just when you need it. One every day, perhaps.

It is a simply a matter of keeping clean inside, as you do on the outside. You don't use soap in large quantities, and rarely. You use it frequently, regularly, just as you need it. Do the same with Cascarets. Then you are always well, always at your best. Keep a 10 cent box handy always.

"I never found out who sent those flowers, but the inscription on the card was appropriate."

A theatrical man now in London writes me that Father Bernard Vaughan, the noted Jesuit preacher who was here a year ago, recently presided as guest at the annual meeting of the Actors' Orphanage Association in that city which was attended by many notable theatrical artists. In the course of his address he said he sympathized with the overworked actor, but sympathized more with the underworked actor, and most of all with the out-of-work actor. He added the professional life was one of the most trying that a man or woman could undertake and they must be exceptionally strong willed and deep souled in order to resist the manifold temptations which lay across their path. The collections taken up afterward for the laudable object throughout the auditorium of the Court Theatre, where the meeting was held, were exceptionally large and encouraging, and showed that usual saving grace of the actor—generosity in distress.

Fresher in looks and just as gracious in manner as when she arrived here eight months ago, Sarah Bernhardt is again in this city.

After traveling 25,000 miles and giving 285 performances in 103 cities, ninety one-night stands, this woman shows not a trace of fatigue. Add to this a trip deep down under the earth to see a copper mine, and an entire night spent on an alligator hunt, a day of fishing off the Catalina Islands, mountain climbing and other like experiences, and one marvels all the more at the vitality of Madame Bernhardt.

Eddie Foy, the comedian, is speaking his mind in emphatic terms regarding the treatment he and his side partner, Gloomy Gus, received from the New Rochelle authorities recently. Gloomy Gus is a Boston terrier.

The other day the comedian, who lives in New Rochelle, bundled nine of his children into his auto, along with Gloomy Gus and some other baseball paraphernalia, and started for a vacant lot to indulge in a ball game. Inside the town limits Foy went into a tobaccoconists. The dog catcher swooped down and

annexed the gloomy one, Gus, not being a member of the town wore no license tag.

When Foy returned to the auto the little Foy's were crying. They told father and he drove to the pound, where the terrier was found. The comedian paid a fine and was permitted to regain possession of Gloomy Gus Foy. Joy again enveloped the Foy auto.

Foy said a few things about the town in general and the official and, to use the comedian's words, "it wasn't any Hamlet soliloquy, either."

Why Suffer With Your Kidneys?

JUST GIVE MARSH ROOT A CHANCE.
THAT'S ALL WE ASK.

We cannot make any fairer proposition than by saying that if you will buy a bottle of **DR. CAREY'S MARSH ROOT** and you are not perfectly satisfied with the results, after taking the same according to directions, we will cheerfully refund your money.

DON'T NEGLECT YOUR KIDNEYS. They are the "main spring" of the "human machine." Every drop of blood in your entire system should pass through your kidneys **EACH THREE MINUTES.** If your kidneys do not filter properly they become clogged up and overflow; the impurities scatter through your system, deranging the other organs, filling the blood with vile impurities, giving life to and nourishing "disease germs" of countless varieties. Your life and happiness depend upon the perfect health of your kidneys.

DON'T NEGLECT THEM. When you first feel that pain in the small of your back, when you commence to have restless nights, your mouth tastes bad in the mornings, you become dizzy and see spots before your eyes, you feel that you "don't care whether school keeps or not," **THEN** doctor up your kidneys. They are out of order. To **NEGLECT** them is **DANGEROUS.**

More people die annually from kidney disease than are killed in battle.

DR. CAREY'S MARSH ROOT will add years to your life.

Growth of Interest in Home and Foreign Missions

(Continued from Page Three.)

Salvation Army in the United States has developed a remarkable trading business, keeping at the present time thirty men on the road selling goods. These men do not enter regular commercial lines, but trade with army people. These people are not merely the officers in charge of posts in various cities, but the volunteers who work in the day time and appear in uniform in the street meetings at night in support of trained officers. Such run into the hundreds of thousands and it is among them that the trade has been developed. Profits from the trade go, of course, to the army and its work. Sales last year amounted to \$324,000. Army officers on this side fear General Booth will not be able, at his age and nearly blind as he is, to get here as he plans.

How many know that two universities for the Philippines are projected, both located in Manila and both to serve the entire archipelago? One has the United States government behind it as represented in the school system of the Philippines, and to its presidency the Rev. Dr. Murray Bartlett has just been appointed. The other is being formed by Protestant missionary societies having work there, Presbyterians and Methodists, taking the lead. The Episcopal church, through its Bishop there, the Rt. Rev. Dr. Charles H. Brent, has not yet decided whether it will enter the plan or not. The government university president, Rev. Dr. Bartlett, was dean of the Episcopal Cathedral in Manila, and has resigned to accept the educational position. He is a native of New York, a graduate of Harvard University, was at one time on the staff of Grace church, New York and left the rectorship of St. Paul's church, Rochester, to go to Manila. The second university, name not yet decided, is part of a general plan to establish great Christian universities in India, China, Japan, and the Philippines, to crown the educational systems planted there by European and American influence in those countries.

Feet So Sore Couldn't Walk Down Stairs—

TIZ Cured Her Quick.

If you have sore feet, tired feet, sweaty feet, lame feet, tender feet, smelly feet, corns, callouses or bunions, read what happened to Mrs. Crockett, of Jeffersonville. **TIZ DID IT.** Mrs. Crockett says: "After the second treatment she walked downstairs one foot at a time. She had not been able to walk downstairs before in past five years, except by stepping down on each step with one foot at a time. This is remarkable. Send five more boxes."

No matter what ails your feet or what under heaven you have used without getting relief, just use **TIZ.** It's different. It acts right off. It cures sore feet to stay cured. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. **TIZ** cleans them out and keeps them clean. You will feel better the first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. **TIZ** is for sale at all druggists, 25c per box, or direct, if you wish, from Walter Luther Dodge & Co., Chicago, Ill.

"When you want to call a person selfish you always say he's looking out for No. 1, don't you?" was a question put by a boy to his father.

"Yes," replied the parent, "unless you are speaking of a widow, sonny. She's lookin' for No. 2 or 3."

Roofing and Building Material, Plaster and Lime

A PAROID ROOF

The roofing that lasts and any one can lay. Thousands of the most progressive farmers, dairymen, poultrymen, etc., as well as railroad companies and the U. S. Government, use PAROID for roofing and siding in preference to all others, because they have proved that PAROID is the most economical, the most durable, and the most satisfactory of all ready roofings.

THIS IS WHY: It is made of extra strong felt with an extra good saturation and coating, which make it proof against sparks, cinders, water, heat, cold, acids, and fumes. Slate color, contains no tar, does not run or crack, and it does not stain rain-water. The only roofing with rust-proof caps. They cannot rust out like ordinary roof caps. Don't be put off with a cheap imitation, get the most economical and durable—the roofing that lasts.

ELECTRICIANS AND PATRIOTS TIED UP YESTERDAY'S GAME

Anderson, June 28.—Manager and Outfielder J. Kelly pitched his first game in two years today and was brilliant until the sixth when the team erred behind him. The game ended in a draw at the end of the eighth inning to enable the Patriots to catch the last train—which would get them to Greensboro in time for the contest with the Spartanburg bunch tomorrow afternoon. J. Kelly also tied the score in the eighth with a two-bagger and two men on.

Score by innings: R. H. E.
Anderson 020 000 02-4 8 3
Greensboro 100 003 00-4 7 2
J. Kelly and Brannon; Morrissey and Stuart. Umpire, Leibrich.

CHARLOTTE TAKES THE FINAL GAME FROM GREENVILLE

Charlotte, June 28.—Today's game went Charlotte's way. Bauswine walked one man and fanned a dozen. The only time the visitors were anywhere near the plate was in the sixth when Smith's three-bagger, followed by Blackstone's single sent one runner across the plate. Only two other hits were secured off Bauswine.

The game was featured by the brilliant all round playing of the Hornets especially notable being the home run of McMillan, the hitting of Seigfried and the fielding of Agnew and Sharpe. The slab work of Bauswine, of course, was the stellar feature.

In the first inning McMillan pounded the sphere over the fence for a homer. In the second two singles and a sacrifice fly added another tally. In the fourth two singles, two passes, a stolen base and two sacrifices added two runs, while two passes, a stolen base and a single netted the final tally in the seventh.

Score by innings: R. H. E.
Charlotte 110 200 10x-5 9 0
Greenville 000 001 000-1 4 2
Batteries—Jamison and Kite; Bauswine and Malcolmson.

TWINS TAKE THE FINAL CONTEST FROM MUSICIANS

Winston-Salem, June 28.—Clancy's timely hitting and the untimely errors of Spartanburg won for the Twins this afternoon by a score of 5 to 1. Both pitchers were in good form, both allowed four hits, but the support given Swindell was much better than that accorded Ferrell. Then Clancy's homer over the right field fence with two on piled up enough runs to silence the opposition.

A number of pretty plays featured the fielding. Schumaker's great catch of a low foul, and a still greater double play unassisted. Ochs, with a man on first and one on second drove a hard low fly between Schumaker and the sack that looked good for two bases, but capturing this with his mitt Schumaker stepped on the first sack for the only double of the game, and about the nearest execution of two players a time seen here this season. Johnny Clancy made a great one-hand stop of a ground ball that had started for the left field fence. Wideman handled a slow one just a few feet down the third base line with a great burst of speed and a quick throw.

Score by innings: R. H. E.
Spartanburg 000 000 100-1 4 5
Winston-Salem 200 030 00x-5 4 1
Batteries: Ferrell and Westlake; Swindell and Dailey.

BUCK FLOWERS BACK WITH THE GREENVILLE CLUB

Greenville, S. C., June 28.—Pitcher Buck Flowers, of last year's Greenville team, reported here this afternoon from Davenport, Iowa, in the Three I League. Wavers were secured on him last week by the local club and he is now ready to work with the locals. It is probable that he will work in one of the games here with Anderson during this week.

So thou but strive, thou too shalt see that defeat is victory itself.

DIAMOND DUST

Where They Play Today.
Spartanburg at Greensboro.
Winston at Charlotte.
Anderson at Greenville.

Baseball here today.

Why didn't they call that game in Anderson at the end of the seventh?

Dr. Tony Walters will probably be on the mound for the locals in the opening game with Spartanburg.

Swindell "came back" yesterday and took a game from the Musicians easily.

The Patriots have won four, lost two and tied one game on this trip—which is a percentage of .667 while on the road.

A big crowd should be at Cone Park today to welcome the winning team of Doyle back from its successful trip.

Seaton has been released from the Anderson team by Manager Kelly. He was reputed to be a wonder when he came but failed to show the goods.

At least 1500 fans should be out to see the game today. After a week's absence of the team, aren't you glad to have the opportunity of seeing one more good game?

Doak is leading the team in batting. Following are the average of the men on the team to June 24:

Doak	331
Fuller	315
Corwin	314
Doyle	306
Rickard	294
Clapp	266
Carroll	228
Stuart	228
Morrissey	200
Lowman	197
Walters	187
Eldridge	185

Following is the records of pitchers in the league, who have won half of their games or more, as compiled by the Western Sentinel:

Swindell—Winston	15	2	.882
Howard—Winston	3	1	.750
Eldridge—Greensboro	11	5	.686
Boyle—Winston	8	5	.615
Morrissey—Greensboro	8	5	.615
Walters—Greensboro	6	4	.600
Cashion—Greenville	10	7	.588
Griffin—Greenville	7	6	.538
Hayes—Anderson	2	2	.500
Jamison—Greenville	3	3	.500
Ray—Winston	2	2	.500
Vickery—Spartanburg	3	3	.500

It will be seen from the above that not a Charlotte pitcher is above the .500 mark, but Hankie is near it with 7 won and 8 lost. Bauswine has won 5 and lost 6, while Scheesley has won 4 and lost 5. Charlotte has never won a game from Boyle, of Winston, Cashion, of Greenville; Eldridge, of Greensboro; Hill, of Spartanburg; Swindell, of Winston, and Walters, of Greensboro.

CARRETA HAS LONG HISTORY

Ancient Indian Vehicle That Has Been in Use Over Two Hundred Years.

The ancient carreta, now in the exhibit room of the Los Angeles Chamber of Commerce, has had an eventful history, as wagons go. It was the property of Alfonso, a Tesuque Indian, eighty-five years old. Alfonso said it had belonged to his great-grandfather and that it had been exhibited at a local fiesta years before as the oldest carreta in the neighborhood. From these facts, well substantiated, and the great age to which Indians live, as a rule, this ancient carreta is estimated to be much over 200 years old. It was purchased by Captain Newton Chittenden, a noted Indian explorer, antiquarian and ethnologist, now living in Pomona, Cal.

On November 23, 1896, this old time cart left Redlands, Cal., on its own wheels and reached Los Angeles December 15, a distance of over sixty miles. Captain Chittenden accompanied it, camping on the way and walked most of the distance, watching with anxious eyes to see that it did not fall to pieces, like the "deacon's wonderful one-horse shay," from its great age. But it survived the journey in good shape and was hauled to the Chamber of Commerce exhibit room, where, sheltered from wind and weather, it may remain a possible 200 years more.

The wheels are made of cross sections of a sycamore tree, 38 inches in diameter and about six inches thick at the outer rim. The hubs are of one piece with the body of the wheels and are roughly extended out to a length of 18 inches. Wooden pins through the axle secure the clumsy wheels. The body is made of cottonwood, excepting the tongue, which is a twisted and gnarled stick of mesquite four feet long. It was driven by oxen hitched to the horns with thongs of rawhide. Its counterpart may be seen in the country districts of Mexico today, drawn in a similar manner, as this was when new, 200 years and more ago.

WHEN THE BARD WAS YOUNG

How Shakespeare Delighted Sir Marmaduke With His Recitation of Some Exquisite Ballads.

"Let us hear of it then, and quickly," cried Sir Marmaduke, putting his hand kindly upon the boy's head. William Shakespeare saw all eyes were fixed upon him; yet there was a friendliness in every aspect which gave him courage to fear. Standing where he was, with a graceful carriage of himself, and a wonderful pleasant delivery, he presently went on with the verses.

"Bravely spoken!" exclaimed the old knight, who had observed and listened to the boy manifestly with a more than ordinary satisfaction in his benevolent pleasant aspect. "Never heard I aught more properly delivered."

"Nor I, by'r lady," said Master Peregrine, in a similar excellent humor. "Where didst learn this exquisite ballad, young sir?"

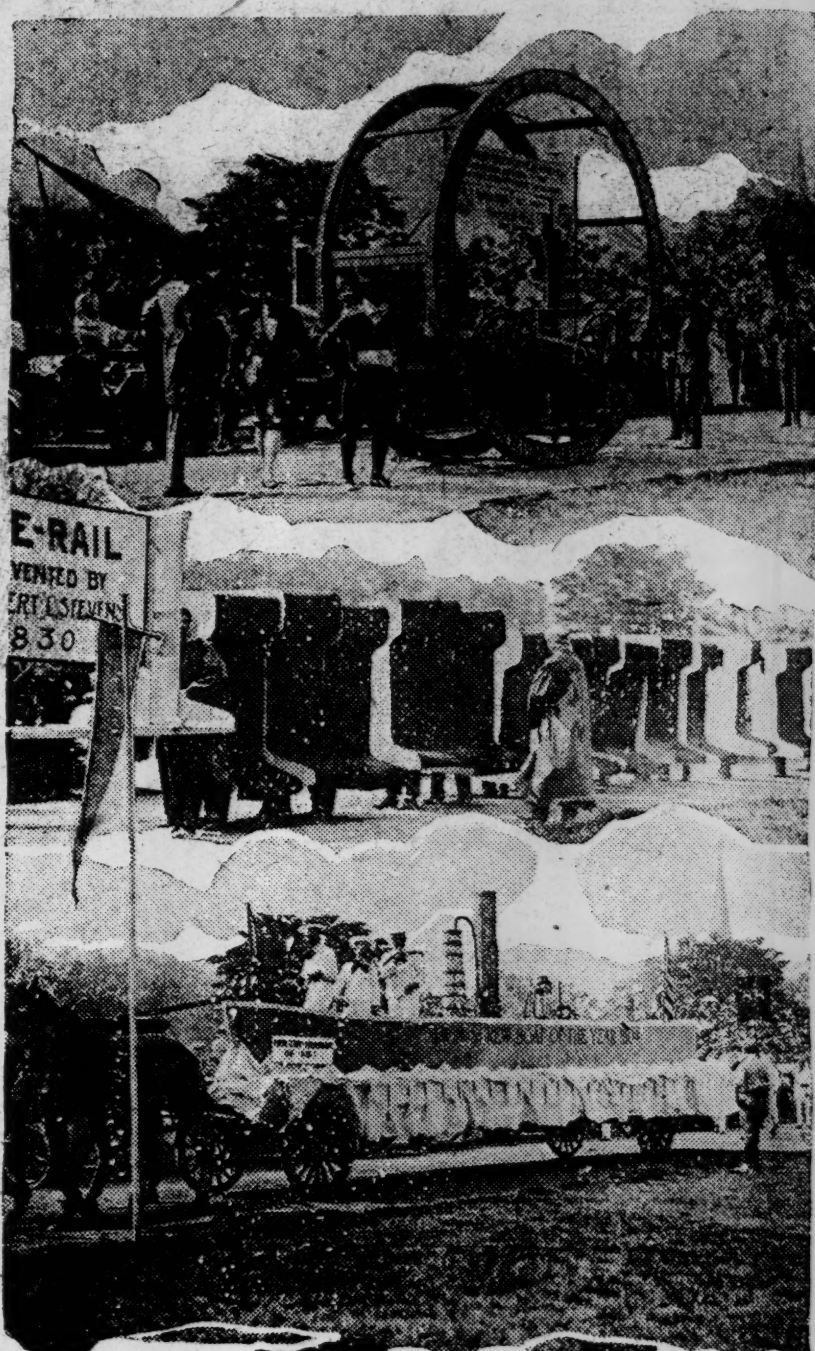

"An' it please you, my mother taught it me," replied William Shakespeare.

"Hast any more such in thy memory?" inquired the other.

"A score at least, an' it please you," answered the boy; "most moving ones of the doings of valiant knights; and sundry of the love of fair ladies, besides which I have store of fairy roundels, that I learned of nurse, Oclely, which smack most sweetly of the dainty blossoms."—William, "The Youth of Shakespeare."

Heaps of trouble always coming to people just because they think they're too smart for it.

Students Celebrate Big Gift to Their College by Unique Parade

Photos by American Press Association.

STUDENTS and graduates of the Stevens Institute of Technology in Hoboken, N. J., recently celebrated the gift of Castle Stevens to the institution to be used as a dormitory and study hall. The building had long belonged to the Stevens family, and the keys were turned over to the president of the college by the grandson of the founder. One of the features of the celebration was a parade in which representatives of every class graduated since the institution was founded forty years ago participated. The former students wore various costumes reminiscent of the days of Colonel John Stevens, the father of the founder of the institute, and of the founder, both of whom were great inventors and did much to make steamboats and steam railroads successful. The class of '97 appeared as a gigantic T rail, that form of railroad track having been invented by a member of the Stevens family. Models of locomotives and steamboats invented and built by the Stevenses were also carried on floats, and a huge wheel, known as the circular track and invented by the class of '90, was also a striking feature of the parade. Graduates of the school who hold important engineering positions all over the world returned to Hoboken to take part in the celebration.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.
